## Design Services

Greentech Renewables Design Services provides comprehensive support for residential projects by providing design, supply assistance, and services. Our national team of account managers knows your solar market and is on call to help you with your next project. We help you build better energy systems and gain a competitive advantage.

### How It Works

- Contact your local Greentech rep.
- We activate your Design account.
- You submit projects from your desktop or phone.
- Get your permits and PE stamps.
- Your local Greentech location handles the rest.

### Permit Package Deliverables

1. Title Sheet & Notes
2. Site Plan Sheet
3. Module Layout & Attachment Detail
4. Electrical Layout Sheet
5. Electrical Diagram & Cable Schedule
6. Placards Sheet
7. Solar Equipment Datasheets
